

PLANNING YOUR PROTOTYPE

What If...?

What key insights or considerations from the research should your team be sure to integrate into your prototype?

<input type="checkbox"/> Feasibility	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/> Desirability	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/> Viability	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/> Quick Win	<input type="checkbox"/>	<input type="checkbox"/>

Describe your solution:

What inspired your solution? *(Is this a new or existing idea? What other efforts would this reinforce or connect to?)*

Who benefits?

How do they benefit?

What are you least certain about?

What resources do you need? *(People, Materials, Technology, Financial)*

What's the fastest test? *(If you were to test your solution in one day with minimal resources, how would you do it?)*

List the steps you would take to accomplish this test.

How will you know this test has been a success?

Project Name:

Lead (Name/Email)

Team (Names/Emails)
